

Hi Brad,

Hope this email finds you well. I just wanted to share with you our recent electric bills.

Our bill in June was only \$176.

We are on target for a bill of \$185 for July.

We keep it on 76 degrees during the day and 71-72 at night. We have not been uncomfortable one day. That's amazing!

In our old house, 76 degrees would have been unbearable and the A/C never stopped running. Our average electric bill in our old house was \$450 /month in the summer.

Thought maybe you would like to share our story with someone who is trying to decide between foam or regular insulation.

Have a great day!!

Happy Home Owners,

Pamela and Patrick Jones
